

Certification Matters

Updates to Board Certified Logo

While completing your Annual and Recertification requirements this year, you may notice a change in our TBLS Board Certified Logo!

TBLS recently modified the original 2010 logo design. In addition to the BC® logo graphic, this new image now includes the TBLS organization name and the appropriate specialty area(s) title. In this graphic configuration, each image conforms to the requirements set by the State Bar of Texas Advertising Review Department, and does not need to be submitted to that department for approval, and may be used in any media. Images may be resized, but any alteration of these graphic elements of any image must be approved by the State Bar of Texas Advertising Review Department.

We also highly recommend that all advertisements/public communications/websites are approved by the [Advertising Review Committee](#). TBLS doesn't review or approve advertising.

Access to the logo was also updated and simplified; all the images are now easily downloaded from your [MyTBLS](#) login page instead of behind the secure login. We hope you will take a look at our updated logos and encourage you to incorporate it in as many forms of communication as possible.

Sincerely,

Gary McNeil
Executive Director
Texas Board of Legal Specialization
