

# Certification Matters

## Celebrating 20 Years of Paralegal Board Certification!

Twenty years ago, TBLS extended certification to paralegals to promote the availability, quality and utilization of the services paralegals provide, having achieved a level of special knowledge in their particular area of law. Today, TBLS applauds the 342 paralegals who have distinguished themselves with Board Certification since TBLS started the paralegal program in 1994. We will be honoring all of our paralegal specialists, as well as this year's newest members.
