Announcing Our New Paralegal Website

The Texas Board of Legal Specialization would like to announce its new website, www.tbls-bcp.org, specifically for Texas' Board Certified Paralegals. This website is an informational tool used to promote the presence and exclusive status of the TBLS paralegal certification process. It also acts as an Intranet for the Board Certified Paralegal (BCP) community and Texas attorneys interested in specialized paralegal matters.

This is only the initial phase of the website, with more video, online member services and social media options to be added in the future.

We welcome any questions or thoughts about the website!

Paralegal Certification Application Update

We want to inform you that the 2015 application process for the Paralegal Board Certification will commence in late spring. As soon as we have more details regarding the availability of the application and any other updates we'll be sure to send out a separate announcement to you all. Feel free to email tbls@tbls.org with any questions or thoughts in the meantime.
